WORK HISTORY

Full Stack Developer

SevginWeb - Remote - 01/2023 - Present

- Revamped the payment process, enhancing user satisfaction and boosting the conversion rate by ~15% within the initial months of deployment.
- Worked closely with a team of four developers and a designer, fostering daily collaboration to enhance the payment system continually.
- Successfully introduced a comprehensive notification service spanning both frontend and backend components.

Full Stack Developer Intern

Accenture - Amsterdam - 05/2022 - 11/2022

- Researched and engineered microservices utilizing Golang, Python and React.
- Proficiently deployed these microservices on GCP via Azure Pipeline, employing Docker and Kubernetes for seamless operations.
- Furthermore, I significantly enhanced the user experience by introducing a redesigned dashboard, presenting information logically and intuitively.

Part-time Full Stack Developer

SevginWeb - Deventer - 08/2021 - 12/2022

- Built several SEO-focused blogs using Next.js and headless WordPress. Increased the CTR to the main site by ~20% in 4 months.
- Implemented the Geo-detect function using Cloudflare Worker, resulted in a lower bounce rate after a few months.

Full Stack Developer Intern

Code.Rehab - Enschede - 02/2021 - 07/2021

- Developed Front-end using React and GraphQL.
- Created microservices with Nodejs using AWS serverless for an online magazine platform. Implemented CI/CD pipeline between Jira and AWS.
- More information: greenzeen.io

Part-time Website Developer

Eye Designer - Geneva - 06/2021 - 12/2021

- Set up two production-ready e-commerce websites for the beauty industry.
- Designed websites, implemented shopping cart, check out and payment services.
- More information: browhenna.ch and dluxglobal.com

PROJECTS

Custom-made Blog - 2022

- Built modern JavaScript-based website using Next.js with a focus on SEO.
- More information: casinosinvietnam.com

Pokedex - 2020

- Built front-end using JavaScript, Quasar framework, Vue.js, Netlify, and CSS.
- Used public API to display all Poke information and created a function to add Pokemon.
- More information: pokedex.tranmani.com

Whatsapp Chat Insight - 2020

- Developed a website that visualizes data from a .txt file exported from WhatsApp chat.
- Used JavaScript, Quasar framework, Vue.js, Highcharts, Heroku, HTML, and CSS.
- Provided detailed insight about the conversation from Whatsapp chat.
- More information: chat-insight.tranmani.com
